

# JACS SOLUTIONS HARDWARE CUSTOMIZATION

## HIGHLY SECURE, FLEXIBLE, EASY TO MANAGE, CUSTOMIZABLE SOLUTIONS.

*When it comes to finding the right tablets, displays, and accessories for your business, one size definitely doesn't fit all. Customers often find that off-the-shelf mobile devices fall short of meeting their needs. That's why JACS Solutions offers unmatched hardware customization to help you build the devices that are perfect for getting the job done. We work closely with enterprise customers to create, design, and manufacture custom products just for you.*

### YOUR VISION, WITHOUT THE COMPROMISE

JACS Solutions can custom build mobile tablets, smartphones, large screen interactive displays, dongles, and accessories to the exact specifications you need, whether it's an individual product or a portfolio of products. JACS Solutions will work closely with you to bring your vision to life. Whether you have clear specifications or are looking to JACS to guide you through building your solution, JACS is your partner in building what's best for you.

**All JACS hardware customization is completed on a case-by-case basis. Talk to your JACS Account Manager about all of the possibilities today!**

**LONG PRODUCT LIFE CYCLE.** Part of building a cost-effective solution, is making sure that products are able to deliver time and time again. That means creating a solution that doesn't need to be replaced after 12-18 months like many off-the-shelf products. Not only do our products have a life cycle upwards of 3-5 years, we work hand in hand with our customers to both forecast and plan upgrades at a minimum of 6 months ahead of time to ensure upgrades work seamlessly with existing infrastructure and processes. Making JACS Solution the perfect investment for today and the future.

**OUTSTANDING PRODUCT DEVELOPMENT CAPABILITY.** JACS Solutions offers development capabilities spanning from conceptualization, design, prototyping, and testing, to certification and regulatory compliance. 70% of our worldwide workforce is in R&D, demonstrating our drive to develop the very best products on the market.

**DEDICATION TO CUSTOMER SERVICE.** JACS Solutions enjoys creating portfolios of custom devices for customer across all industries. We pride ourselves in both the ability to develop innovative products through partnership with our customers, and our unrelenting focus on customer service and quality.

# JACS HARDWARE CUSTOMIZATION PROCESS

Phase 1

## Discovery

We will work hand-in-hand with you to determine the requirements for the vision for your end solution.

Phase 4

## Development & Validation

We will develop a sample device to be used as a Proof-of-Concept.

Phase 2

## Concept Creation

We will evaluate the feasibility and build product concept based on your requirements.

Phase 5

## Pilot Production

We will kick off necessary certifications and pilot production.

Phase 3

## Business Case

We will present a business case to your team which includes the following: ID design, conceptual specs, risks, NRE fees, and a timeline for development.

Phase 6

## Mass Production

We will mass produce your device.
